INQUIRIES

Councillor R. Brockington

When can or will the opportunity occur for Council to review the processes of the City and the Ottawa Community Lands Development Corporation (OCLDC) such that Council could require that there be improved opportunities for public consultation for lands that have been turned over to the Ottawa Community Lands Development Corporation?

What steps would be required for the local Councillor to receive notice of and to be permitted to attend Board meetings of Ottawa Community Lands Development Corporation when matters in her/his ward are under consideration?

Councillor T. Tierney

In advance of the 2019 Budget in the new term of Council, many residents have expressed interest in greater funding for roads. To ensure that we have accurate, current information in front of the next term of council, we need to look at utilizing live interactive online maps of all road life cycles, conditions, resurfacing data and forecasts – similar to those interactive maps currently in use by the City of Los Angeles and the County of Sonoma.
